

## How to mske the Scarecrow Puppet

1. Print and cut out the head and body of the puppet.
2. Color the puppet parts and then cut acreoss on the line above the mouth.
3. Place paper bag so that the opening is toward you and the bottom of the bag is away from you.
4. Glue the top part of the head to the bag bottom so that the top of mouth lines up with the fold.
5. Glue the mouth and bottom of head just below the fold so that when a hand is placed in the bag it can open and close the mouth.
6. Glue the body to the bag below the head.
