

Make a Cross Card

Print NIV or KJV file

Print on cardstock

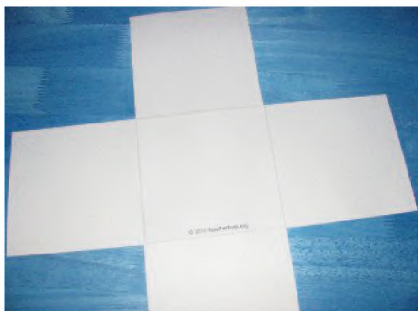

Cut out all files and have glue or glue stick available. Lay them out on a table in the shape of a cross

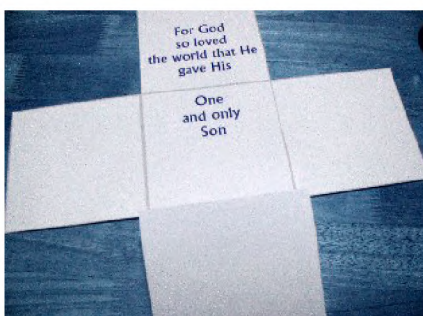

Glue cross tabs to sides on bottom of the top part of cross.

Glue the bottom part of the cross to the bottom of upper part.

Turn the cross over so that printing is down. Glue the square with only the copyright on it to the center part of the cross

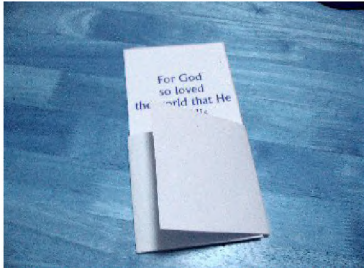

Turn the cross over so that the printing is up. Fold the bottom part of the cross up toward the center of the cross.

Make a Cross Card (2)

Fold again, so that the top of the fold meets the bottom of the top square.

Fold both sides of the cross toward the center

Fold the top of the cross down.

Glue the gift picture to the folded down top.

Seal the card closed if you wish and give it to someone, or use as part of a children's sermon. Use with a devotional or sermon such as **The Greatest Gift of All** from sermons4kids.com. When they open it they will see a cross with John 3:16 on it. It is a great tool to use to present the gospel to children.
